

Footpaths and Highways update **Meeting 14th June 2023**

1. Judging from comments on social media, No Mow May was welcomed and unwelcomed in equal measures! We had some lovely comments about how great the village was looking, how pleased people were that we were addressing climate issues and some negative comments on FB about the cemetery in particular. This was largely due to misunderstanding with people assuming that we weren't cutting at all and that it was not just limited to May. We need to remember this and make sure that we communicate well going forward.
2. The footpaths working group met with the contractors and looked at all the cutting including the LMP contract and wrote a comprehensive plan.
3. All areas have now been cut following No Mow May.
