

Neighbourhood Development Plan (NDP)

1. NDP Steering Group update

A working group meeting was held on Monday 10th June and an outline Parish Design Code was agreed based on evidence gathered in the parish questionnaire and the template recommended by Cornwall Council. Further elements of the document were then considered and delegated to individual members for completion.

Bearing in mind workload and holiday periods, it is intended that the first draft of the Design Code will be circulated to WG members and Parish Councillors for comments prior to review at the NDP SG meeting on 9th September and the SPC meeting on 11th September 24.

The agreed first draft of the Design Code will then go out to public scrutiny.

In the meantime, the first draft of the Neighbourhood Development Plan is also nearing completion and should be ready for review by the Parish Council in the Autumn, however the current priority is to register the Design Code with Cornwall Council as quickly as possible.
